I am writing this email to show my Willingness to start my career as mentioned in your job advertisement and also after skimming your website <http://www.promedicus.com.au>. I have completed my Master in English Literature in India. I am keen to start my career in I.T. In Australia as my husband is an I.T. Professional working for National Australia Bank as Sr. Linux Engineer(DevOps) and we both want to pursue our careers in I.T. I understand the Linux systems and I am confident that my husband would Certainly be able to assist me in case I need any help.

I have a potential to Seize each and every single opportunity with my Innovative ideas to increase productivity. With the dedication and the exceptional time management skills and my zeal to learn and adapt quickly, I am amply capable of "growing your Bottom Line" to exceed the business expectation.

I always use my Mac or my laptop with Linux installed at my home and I am well prepared to take this as a golden opportunity to start my career in Australia.

I can be contacted on my mobile 0470406296 any time to discuss it further.

Yours faithfully,
Jyoti Jalwal
